

Data Sheet – Motor Sport Powder Handhelds

Lifeline offers a comprehensive range of quality hand held ABC and Monnex Powder extinguishers to suit all budgets. The highly efficient 2.0kg units meet FIA International Motorsport minimum requirements. It should be noted that the MSA does not currently permit the use of powder for use in car on UK national events.

Lifeline hand held extinguishers are supplied complete with a bracket and quick release strap for easy access (except for belt mount units). All units have a 2 year servicing cycle.

- **2.0kg ABC** powder handheld, FIA International specification.
- **2.0kg Monnex BC** powder handheld, FIA international specification.
- **0.7kg Monnex BC** powder, Belt Mount for pit crew and garage use.
- **1.0kg Monnex BC** powder handheld, for garage and non-motorsport uses.

The Lifeline range of handheld units is manufactured to the same exacting standards as in our World Championship Teams chosen systems.
